A contribution towards a community center for orphans and widows in Uganda has been given in your honor!

ROWAN is growing and needs a multi-purpose community center to gather in for meetings, worship services and classes. A large meeting tent will provide shelter during the rainy season and help foster a greater sense of community year-round. It will also help generate program income as ROWAN rents the tent to other groups for meetings and special events. A contribution to support community and a local income-generating opportunity has been given in your name!
