The gift of a secure home for an orphan or widow
in Uganda has been made in your honor!

Rural villagers in Eastern Uganda are struggling to find
adequate shelter to live in. The grass used to repair their
thatched-roof houses is becoming scarce and iron sheets for
metal roofs are too expensive for the average household.
To provide weatherproof homes, ROWAN is making much-
needed repairs to our orphans' and widows' huts.

The gift of substantial roofing materials and lasting hut
repairs has been given in your name!
