The gift of a safe and restful night's sleep  
for an orphan or widow in Uganda has been  
made in your honor!

Ninety percent of ROWAN's orphans, widows and widowers  
sleep on the ground—without a mattress to lie on. They also  
lack the protection of a mosquito net, which is essential to  
prevent harmful insect bites and malaria. ROWAN is giving a  
mattress and protective mosquito net to every child,  
widow and widower.

The gift of a safe and restful night's sleep has been given in  
your name through the gift of a mattress and mosquito net.
